Always use a qualified technician or service agency to repair this fireplace.

! NOTE: Procedures and techniques that are considered important enough to emphasize.

⚠ CAUTION: Procedures and techniques which, if not carefully followed, will result in damage to the equipment.

⚡ WARNING: Procedures and techniques which, if not carefully followed, will expose the user to the risk of fire, serious injury, or death.

(i) Welcome & Congratulations

Thank you and congratulations for choosing to purchase an electric fireplace from Dimplex, the world leader in electric fireplaces.

Please carefully read and save these instructions.

⚠ CAUTION: Read all instructions and warnings carefully before starting installation. Failure to follow these instructions may result in a possible electric shock, fire hazard and will void the warranty.

Please record your model and serial numbers below for future reference: model and serial numbers can be found on the Model and Serial Number Label of your fireplace.

IMPORTANT INSTRUCTIONS

When using electrical appliances, basic precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

- ① Read all instructions before using the electric fireplace.
- ② The heater is hot when in use. To avoid burns, do not let bare skin touch hot surfaces. The trim around the heater outlet becomes hot during heater operation.
- ③ Extreme caution is necessary when any heater is used by or near children or invalids and whenever the unit is left operating and unattended.
- ④ Always unplug the electric fireplace when not in use.
- ⑤ Do not operate any heater after it malfunctions. Disconnect power at the service panel and have the heater inspected by a reputable electrician before reusing.
- ⑥ Do not operate any unit with a damaged cord or plug, or if the heater has malfunctioned, or if the electric fireplace has been dropped or damaged in any manner, contact Dimplex Technical Service at 1-888-346-7539.
- ⑦ Do not use outdoors.
- ⑧ Never locate heater where it may fall into a bathtub or other water container.
- ⑨ Do not run the cord under carpeting. Do not cover cord with throw rugs, runners, or the like. Arrange cord away from traffic area and where it will not be tripped over.
- ⑩ Do not locate the heater immediately below a fixed socket-outlet.
- ⑪ To disconnect the unit, turn the controls off, then remove the plug from the outlet.
- ⑫ Do not insert or allow foreign objects to enter any ventilation or exhaust opening as this may cause an electric shock or fire, or damage to the heater.
- ⑬ To prevent a possible fire, do not block air intake or exhaust in any manner.
- ⑭ All electrical heaters have hot and arcing or sparking parts inside. Do not use in areas where gasoline, paint, or flammable liquids are used or stored.

IMPORTANT INSTRUCTIONS

- ⑯ Do not modify the electric fireplace. Use it only as described in this manual. Any other use not recommended by the manufacturer may cause fire, electric shock or injury to persons.
- ⑯ Always plug heaters directly into a wall outlet/receptacle. Never use with an extension cord or relocatable power tap (outlet/power strip).
- ⑯ Do not burn wood or other materials in the electric fireplace.
- ⑯ Do not strike the fireplace glass.
- ⑯ Always use a certified electrician should new circuits or outlets be required.
- ⑯ Always use properly grounded, fused and polarized outlets.
- ⑯ Disconnect all power supply before performing any cleaning, maintenance or relocation of the unit.
- ⑯ When transporting or storing the unit and cord, keep in a dry place, free from excessive vibration and store so as to avoid damage.

 **WARNING:** Remote control contains small batteries. Keep away from children. If swallowed, seek medical attention immediately.

 **WARNING:** Do not install battery backwards, charge, put in fire or mix with used or other battery types - may explode or leak causing injury.

! NOTE: Changes or modifications not expressly approved by the party responsible for compliance could void user's authority to operate the equipment.

CAUTION
RISK OF ELECTRIC SHOCK
DO NOT OPEN
NO USER-SERVICEABLE PARTS INSIDE

SAVE THESE INSTRUCTIONS

IMPORTANT INSTRUCTIONS

! NOTE: This equipment has been tested and found to comply with the limits for Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If his equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause interference and (2) this device must accept any interference received, including interference that may cause undesired operation.

Fireplace Installation

⚠ WARNING: Ensure the power cord is not installed so that it is pinched or against a sharp edge and ensure that the power cord is stored or secured to avoid tripping or snagging to reduce the risk of fire, electric shock or injury to persons.

⚠ WARNING: Construction and electrical outlet wiring must comply with local building codes and other applicable regulations to reduce the risk of fire, electric shock and injury to persons.

⚠ WARNING: Do not attempt to wire your own new outlets or circuits. To reduce the risk of fire, electric shock or injury to persons, always use a licensed electrician.

⚠ WARNING: To reduce the risk of fire, do not store or use gasoline or other flammable vapors or liquids in the vicinity of the heater.

⚠ CAUTION: Clearance for air circulation beneath the fireplace insert is provided by two rubber feet.

Do not install the fireplace insert directly on carpet or similar surfaces which may restrict air circulation.

⚠ CAUTION: If installing the fireplace in a carpeted area, place a one-piece, solid, flat surface under the fireplace. Ensure that both of the feet rest securely on this surface.

! NOTE: The dimensions of the fireplace with the trim are $27 \frac{3}{8}$ " (695 mm) wide X $23 \frac{1}{2}$ " (596 mm) high X $8 \frac{3}{4}$ " (222 mm) deep. Dimensions without trim are $26 \frac{1}{4}$ " (663 mm) wide X $22 \frac{7}{8}$ " (580 mm) high X $8 \frac{3}{4}$ " (222 mm) deep. The fireplace does not require any additional venting (Figure 1).

Figure 1

Fireplace Installation

Fireplace Assembly

Depending on the unit, the front glass will come packaged separately or installed in the firebox.

1. Remove fireplace and glass (if not already installed) carefully from the carton, discard the plastic bag and foam packaging.
2. Remove the right hand side trim by removing four Phillips screws at the side of the fireplace. (Figure 3)
3. Remove the front glass, if necessary
4. Remove the foam block from within the fireplace (Figure 2).
5. Using side cutters or scissors,

cut and remove the two cable ties as shown in Figure 2 and remove the cardboard that protects the log set.

6. Place the Front Glass onto the track of the fireplace (Figure 3) and slide it along the front until it reaches the far left of the unit.
7. Re-attach the right hand trim piece using the four Philips screws from step 4.

Mantel Installation

Install the fireplace assembly into the mantel (refer to mantel assembly instructions).

! IMPORTANT: If not using a Dimplex mantel, the fireplace

Figure 2

Figure 3

Fireplace Installation

Figure 4

must be installed in an enclosure with the following **MINIMUM** dimensions (Figure 4).

New Wall Construction

8. Mark the desired location on the floor.
9. Use studs to frame an opening of 26 3/4" (679 mm) wide X 23 1/8" (587 mm) high X 9" (229 mm) deep.
10. Plug the unit into a 15 Amp, 120 Volt outlet.

Option #1: The power cord can be run from behind the trim and along the wall to an outlet near the fireplace.

Option #2: A new outlet can be installed inside the framing con-

struction.

! NOTE: A 15 Amp, 120 Volt circuit is required. A dedicated circuit is preferred but not essential in all cases. A dedicated circuit will be required if after installation the circuit breaker trips or fuse blows on a regular basis when the heater is operating. Additional appliances on the same circuit may exceed the current rating of the circuit breaker.

Existing Fireplace

1. Seal all drafts and vents with a non-fibrous insulation material to prevent any chimney debris from falling onto the fireplace. Do not install into an existing fireplace that is prone to dampness.
2. Cap the top of the chimney flue to prevent rain from entering.
3. Plan your electric power supply.
4. The power cord can run along the front of the hearth to an outlet near the fireplace.

For Bathroom Use

If this unit is installed in a bathroom it must be protected by

Fireplace Installation

a GFI receptacle or circuit. If receptacle is used it must be readily accessible. To prevent electrical shock this unit is an electrical appliance that is not watertight and must be installed as to prevent water from entering unit. This must be installed away from showers, tubs, etc. Never locate fireplace where it may fall into a bathtub or other water container. High temperatures may be generated under certain abnormal conditions. Do not partially or fully cover or obstruct the front of this heater.

Wiring

Operation

Figure 5

⚠️ WARNING: This electric firebox must be properly installed before it is used.

Manual Controls

To access the controls, flip open the control panel cover towards the bottom of the fireplace. (Figure 5)

A. On/Off Switch

The On/Off Switch supplies power to all fireplace functions (Heater/ Flame).

B. Flame Action Control 🔥

Turn the Flame Action Control knob to adjust the flame speed to the desired level.

C. Interior Light Control 💡

Turn the Interior Light Control knob to increase or decrease the brightness of the upper lights.

D. Thermostat Control 🌡️

To adjust the temperature to your individual requirements, turn the

thermostat control clockwise all the way to turn on the heater. When the room reaches the desired temperature, turn the thermostat knob counter clockwise until you hear a click. Leave thermostat in this position to maintain the room temperature at this setting. For additional heat, turn clockwise until you hear the click again and the heater will turn on.

! NOTE: The heater on your fireplace may emit a slight, harmless odor when first used. This odor is a normal condition caused by the initial heating of internal heater parts and will not occur again.

E. LED Indicators

Indicates the current function of the fireplace.

! NOTE: When the firebox is changing from Low heat to High heat the speed of the fan does

Operation

not change just the amount of heat being emitted.

F. 3-Position Switch

Pressing the switch up "I" toggles sequentially through the three levels of the fireplace.

Level 1: The flame effect is turned on and the first red indicator light flashes momentarily.

Level 2: The flame effect remains on, the heater is activated to the low heat setting, and the first and second red indicator lights flash momentarily.

Level 3: The flame effect remains on, the heater is set to the high heat setting, and all three red indicators flash momentarily.

Pressing the switch down "II" will turn the unit Off.

Resetting the Temperature Cutoff Switch

Should the heater overheat, an automatic cut out will turn the fireplace off and it will not come back on without being reset. It can be reset by switching the On/Off Switch to Off and waiting five minutes before switching the unit back on.

If operating the unit with a remote control, the remote may require

re-initializing after turning the power off.

CAUTION: If you need to continuously reset the heater, unplug the unit and call Dimplex North America Limited at 1-888-346-7539 for technical support. Please have your model and serial number ready when calling.

Remote Control

The fireplace is supplied with a radio frequency remote control. This remote control has a range of approximately 50 feet (15.25 m), it does not have to be pointed at the fireplace and can pass through most obstacles (including walls). It is supplied with one of

Figure 6

Operation

hundreds of independent frequencies to prevent interference with other units.

! NOTE: Before attempting any operation with the remote control, pull the plastic insulator strip out from between the remote casing and battery cover.

Remote Control Initialization/ Reprogramming

This procedure is required every time there is a loss of power to the remote control in the fireplace. (i.e. power failure, breaker tripped, On/Off switch is turned off.)

1. Ensure that power is supplied through main service panel.
2. Locate manual controls.
3. Activate On/Off switch. (Figure 5A)
4. Press and hold the 3-Position Switch in the "I" position for 5-10 seconds until the second indicator light begins to flash. (Figure 5E)
5. Press the ON button located on the remote control. (Figure 6)

This will synchronize the remote control and receiver.

Remote Control Usage

The remote control operates the fireplace levels sequentially. The level is increased every time the "ON" button on the remote control is pressed. The fireplace can be turned off at any point by pressing the "OFF" button on the remote control.

Battery Replacement (Figure 6)

To replace battery:

1. Slide battery cover open on the remote control.
2. Install one 12-volt (A23) battery in the battery holder.
3. Close the battery cover.

Battery must be recycled or disposed of properly.
Check with your Local Authority or Retailer for recycling advice in your area.

Maintenance

⚠ WARNING: Disconnect power before attempting any maintenance or cleaning to reduce the risk of fire, electric shock or damage to persons.

! NOTE: The fireplace should not be operated with an accumulation of dust or dirt on or in the unit, as this can cause a build up of heat and eventual damage. For this reason the heater must be inspected regularly, depending upon conditions and at least at yearly intervals.

Light Bulb Replacement

The light bulbs need to be replaced when you notice a dark section of the flame or when the clarity and detail of the log ember bed exterior reduces. There are three bulbs under the log set, which generate the flames and embers, and two bulbs above the

log that illuminate the log exterior.

Helpful Hints: It is a good idea to replace all light bulbs at one time if they are close to the end of their rated life. Group replacement will reduce the number of times you need to open the unit to replace light bulbs. Care must be taken when removing the log set as the log set contains LED's and wires.

Lower Light Bulb Requirements

Quantity of three clear chandelier or candelabra bulbs with an E-12 (small) socket base, 60 Watt rating. Example: GE 60BC or Philips 60 CTC. **Do not exceed 60 Watts per bulb.**

To access the lower light bulb area:

⚠ CAUTION: Allow at least five minutes for the light bulbs to cool before touching them to avoid accidental burning of the skin.

Figure 7

Figure 8

Maintenance

1. Slide fireplace out of mantel.
 2. Lay unit on its back for safe removal of front glass.
 3. Remove four Phillips screws from the right side of trim.
 4. Slide glass to right side of fireplace to remove (Figure 7).
 5. Pull the front edge of the plastic ember bed or plastic grate up and forward until the rear tab releases from the ledge located at the bottom of the partially reflective glass (Figure 8).
 6. Remove flicker rod by sliding flicker rod to the left away from the flicker motor and lifting out.
 7. Remove light bracket for easier access to light bulbs.
- ! IMPORTANT:** Only handle the log set by the ember bed.
- ! NOTE:** Log set fits tightly into firebox, some force may be necessary to remove.
8. Set log set in front of fireplace.
 9. Unscrew bulbs counter clockwise.
 10. Insert new bulbs.
11. Replace the log set by inserting the front edge of the fireplace and push down on the rear edge of the ember bed until it snaps into place (Figure 8).
 12. Lay unit on its back and slide front glass back into position and attach trim.
- ! NOTE:** Ensure the log set is installed tightly under the back ledge to prevent light leakage.

Upper Light Bulb Requirements

Quantity of two clear chandelier or candelabra bulbs with an E-12 (small) socket base, 15 Watt rating. **Do not exceed 15 Watts per bulb.**

To access the upper light bulb area:

⚠ CAUTION: Allow at least five minutes for the light bulbs to cool before touching them to avoid accidental burning of the skin.

1. Slide fireplace out of mantel.
2. Lay unit on its back for safe removal of front glass.
3. Remove four Phillips screws from right side of trim.
4. Remove trim.
5. Slide glass to the right side of

Maintenance

the fireplace to remove.

6. Upper bulbs located in the upper left and upper right corners of fireplace.
7. Remove upper light block by removing the four (4) mounting screws.
8. Unscrew bulbs counter clockwise.
9. Insert new bulbs.
10. Re-install upper light bracket.
11. Lay unit on it's back slide front glass back into position and attach trim.

Glass Cleaning

The glass is cleaned in the factory during the assembly operation. During shipment, installation, handling, etc., the glass may collect dust particles; these can be removed by dusting lightly with a clean dry cloth.

To remove fingerprints or other marks, the glass can be cleaned with a damp cloth. To prevent scratching, do not use abrasive cleaners or spray liquids on the any surface.

Fireplace Surface Cleaning

Use a cloth dampened with warm water only to clean painted surfaces of the electric fireplace. Do not use abrasive cleaners.

Warranty

Products to which this limited warranty applies

This limited warranty applies to your newly purchased Dimplex electric fireplace. This limited warranty applies only to purchases made in any province of Canada except for Yukon Territory, Nunavut, or Northwest Territories or in any of the 50 States of the USA (and the District of Columbia) except for Hawaii and Alaska. This limited warranty applies to the original purchaser of the product only and is not transferable.

Products excluded from this limited warranty

Light bulbs are not covered by this limited warranty and are the sole responsibility of the owner/purchaser. Products purchased in Yukon Territory, Nunavut, Northwest Territories, Hawaii, or Alaska are not covered by this limited warranty. Products purchased in these States, provinces, or territories are sold AS IS without warranty or condition of any kind (including, without limitation, any implied warranties or conditions of merchantability or fitness for a particular purpose) and the entire risk of as to the quality and performance of the products is with the purchaser, and in the event of a defect the purchaser assumes the entire cost of all necessary servicing or repair.

What this limited warranty covers and for how long

Products, other than fireplace surrounds (mantels) and trims, covered by this limited warranty have been tested and inspected prior to shipment. Subject to the provisions of this warranty, Dimplex warrants such products to be free from defects in material and workmanship for a period of 2 years from the date of the first

purchase of such products as follows: (a) a repair or replacement warranty on defective products or parts, including in-home services, for the first year following the date of first purchase; and (b) thereafter, a replacement of parts warranty on defective products and parts (with no in-home services) for the 1 year period commencing on the first anniversary of first purchase and ending on the second anniversary of the date of first purchase.

Dimplex fireplace surrounds (mantels) and trims covered by this limited warranty have been tested and inspected prior to shipment and, subject to the provisions of this warranty, Dimplex warrants such products to be free from defects in material and workmanship for a period of 1 year from the date of first purchase of such products. Warranty services do not include in-home services.

The limited 2 year warranty period for products other than fireplace surrounds (mantels) and trims and the limited 1 year warranty period for fireplace surrounds (mantels) and trims also applies to any implied warranties that may exist under applicable law. Some jurisdictions do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to the purchaser.

What this limited warranty does not cover

This limited warranty does not apply to products that have been repaired (except by Dimplex or its authorized service representatives) or otherwise altered. This limited warranty does further not apply to defects resulting from misuse, abuse, accident, neglect, incorrect installation, improper maintenance or handling, or operation with an incorrect power source.

Warranty

What you must do to get service under this limited warranty

Defects must be brought to the attention of Dimplex Technical Service by contacting Dimplex at 1-888-DIMPLEX (1-888-346-7539), or 1367 Industrial Road, Cambridge Ontario, Canada N1R 7G8. Please have proof of purchase, catalogue/model and serial numbers available when calling. Limited warranty service requires a proof of purchase of the product.

What Dimplex will do in the event of a defect

In the event a product or part covered by this limited warranty is proven to be defective in material or workmanship during (i) the 2 year limited warranty period for products other than fireplace surrounds (mantels) and trims, and (ii) the 1 year limited warranty period for surrounds (mantels) and trims, you have the following rights:

- Limited warranty service will be performed solely by dealers or service agents of Dimplex authorized to provide limited warranty services.
- **For products (other than surrounds (mantels) and trims) for the period ending at midnight on the first anniversary of the date of first purchase,** Dimplex will in its sole discretion either repair or replace such defective product or part without charge. If Dimplex is unable to repair or replace such product or part, or if repair or replacement is not commercially practicable or cannot be timely made, Dimplex may, in lieu of repair or replacement, choose to refund the purchase price for such product or part. *This limited warranty entitles the purchaser to on-site or in-home warranty services.* Accord-

ingly, Dimplex will be responsible for all labour and transportation costs associated with the repair or replacement of the product or part except as follows: (i) charges may be levied for travel costs incurred to travel to the purchaser's site where the product is located if the purchaser's site is beyond 30 miles (48 km) from the closest service depot of Dimplex's dealer or service agent; and (ii) the purchaser is solely responsible for providing clear access to all serviceable parts of the product.

- **For products (other than surrounds (mantels) and trims) for the period commencing at 12:01 a.m. on the day after the first anniversary of the first purchase and ending at midnight on the second anniversary of the date of first purchase,** this limited warranty entitles the purchaser to replacement parts only without charge. If Dimplex is unable to replace such part, or if replacement is not commercially practicable or cannot be timely made, Dimplex may, in lieu of replacement, choose to refund the purchase price for such part. The purchaser shall not be entitled to on-site or in-home warranty services. The purchaser shall be responsible for all expenses incurred for the removal of the part and installation of the replacement part including, without limitation, all shipping costs and transportation costs to and from the authorized dealer's or service agent's place of business and all labour costs. Such costs shall not be the responsibility of Dimplex.
- **For surrounds (mantels) and trims for the period ending at midnight on the first anniversary of the date of**

Warranty

first purchase, Dimplex will in its sole discretion either repair or replace such defective surrounds (mantels) and trims or part thereof without charge. If Dimplex is unable to repair or replace such product or part, or if repair or replacement is not commercially practicable or cannot be timely made, Dimplex may, in lieu of repair or replacement, choose to refund the purchase price for such product or part. The purchaser shall not be entitled to on-site or in-house services. The purchaser is responsible for all expenses incurred for repair or replacement of such product or part including, without limitation, all shipping costs and transportation costs to and from the authorized dealer's or service agent's business and all labour costs. Such costs shall not be the responsibility of Dimplex.

- On-site or in-home services not provided under this warranty may be performed at the purchaser's specific request and expense at Dimplex's then-current rates for such services.

What Dimplex and its dealers and service agents are also not responsible for.

IN NO EVENT WILL DIMPLEX, OR ITS DIRECTORS, OFFICERS, OR AGENTS, BE LIABLE TO THE PURCHASER OR ANY THIRD PARTY. WHETHER IN CONTRACT, IN TORT, OR ON ANY OTHER BASIS, FOR ANY INDIRECT, SPECIAL, PUNITIVE, EXEMPLARY, CONSEQUENTIAL, OR INCIDENTAL LOSS, COST, OR DAMAGE ARISING OUT OF OR IN CONNECTION WITH THE SALE, MAINTENANCE, USE, OR INABILITY TO USE THE PRODUCT, EVEN IF DIMPLEX OR ITS DIRECTORS, OFFICERS, OR AGENTS HAVE BEEN ADVISED OF

THE POSSIBILITY OF SUCH LOSSES, COSTS OR DAMAGES, OR IF SUCH LOSSES, COSTS, OR DAMAGES ARE FORESEEABLE. IN NO EVENT WILL DIMPLEX, OR ITS OFFICERS, DIRECTORS, OR AGENTS BE LIABLE FOR ANY DIRECT LOSSES, COSTS, OR DAMAGES THAT EXCEED THE PURCHASE PRICE OF THE PRODUCT.

SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO THE PURCHASER.

How State and Provincial law apply

This limited warranty gives you specific legal rights, and you may also have other rights which vary from jurisdiction to jurisdiction. The provisions of the United Nations Convention on Contracts for the Sale of Goods shall not apply to this limited warranty or the sale of products covered by this limited warranty.
